

Healthcare & Life Sciences Respiratory Protection

Is your last line of defense your biggest weakness?

Healthcare and Life Sciences environments are full of uncertainties, from the patients you treat and the volatile situations you attend, to the products you manufacture. In your role, you can't afford to take any risks with your health. The best way to ensure you're safe no matter what is by investing in your last line of defense, your respiratory protection.

Tight-fitting

Loose-fitting

PAPR

Who we are?

RPB and GVS are respiratory protection and filtration specialists, with over 80 years combined industry experience dedicated to protecting people for life's best moments. Through our range of powered air and tight-fitting respiratory protection systems, we're able to provide you with the necessary levels of protection you need, no matter your environment.

Protecting you for life's best moments.
