3870HSG-WS

Pre & Post Vacuum Autoclave
85L / 22.5 Gallon Chamber

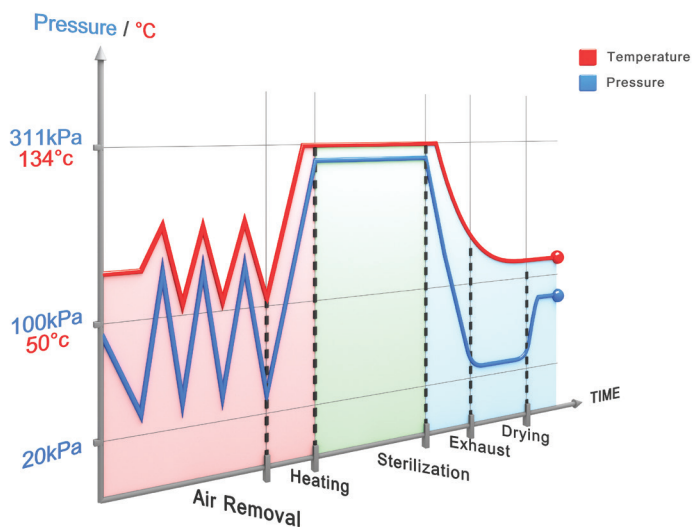

Economic Line

Healthcare Autoclaves

Hospital Grade Performance for Ambulatory Surgery Centers, Large Clinics & Veterinary Hospitals

The 3870HSG-WS autoclave is an 85 liter autoclave that is ideal for ASC's and large clinics. The 3870HSG-WS autoclave provides hospital grade sterilization and medium loading capacity at a cost-effective price that meets the highest international standards.

- ▶ PRE & POST VACUUM, CLASS B
- ▶ COMPACT
- ▶ WATER SAVING
- ▶ PLUG & PLAY
- ▶ EASY TO MOVE - EASY TO INSTALL
- ▶ COST-EFFECTIVE PRICING

Pre & Post Vacuum Performance

Pre & Post vacuum performance is achieved with a built-in vacuum pump used for fractionated pre vacuum air removal eliminating air pockets from all load types and maximizing efficient steam penetration throughout the entire load. After the sterilization stage the vacuum pump is used for post-vacuum drying, resulting in bone-dry load at the end of the cycle.

COMPACT

Narrow Design - fits through standard doorways
 Minimal Footprint - high capacity autoclave which does not require a lot of space

GREEN

- Water Saving System – up to 5 liters of tap water per day only
- Sleep Mode - Control system switches off while not in use. The generator remains active 24 hours per day!
- Low Rate Cycle - you can run your sterilizer after work hours, by setting a delayed start time

PLUG & PLAY

Independent Mode - no need to connect the autoclave to the building utilities for distilled water, tap water or drain

EASY TO MOVE - EASY TO INSTALL

- Mobile – easy to move to new locations due to built-in swivel wheels
- Installation Made Easy – no need for complicated utility connections
- Adjustable Floor Layout – easy installation adjusted to floor layout

COST EFFECTIVE PRICING

Efficient Chamber Design – rounded chamber allows for economic performance, without compromising sterilization performance

Sterile Processing Department

(A) High Thermal Disinfectant Washer (B) 5075HSG, (C) 3870HSG-WS, (D) Steri-Center Packing Table

Innovative Control System

Dynamic Multi-Color Display

A bright multicolor LCD panel for easy reading, even from a distance.

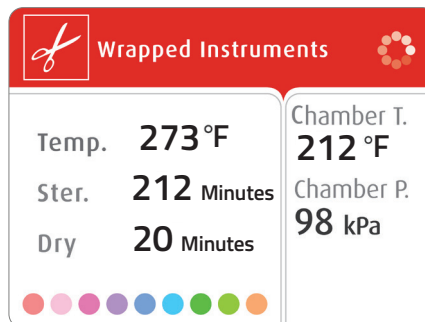

- Wheel rotates to indicate an active cycle
- Time remaining during Water Filling, Sterilization, and Drying stages is updated in real-time

Sterilization

00:19

Exhaust

Digital Data on Your PC

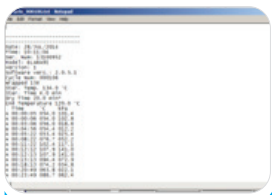

Save cycle data files on your PC with no additional software or specialized hardware

Connect USB memory

Select "Export History"

View Cycle Data Files on Your PC

Connect USB memory to your PC

Built-in Printer

Documents detailed history of each cycle

R.PC.R Software

Automatic Recording of Cycle Information to Your PC

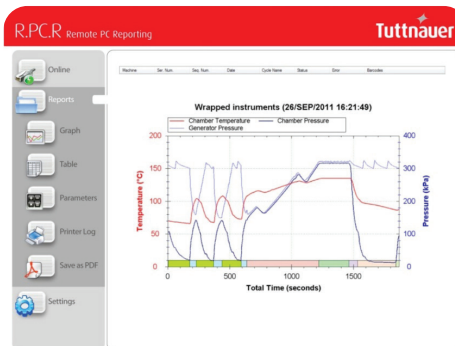

Reporting You Can Rely On

- Automatic cycle data recording to any PC on your network
- Convenient access to graphs & tables
- Easily generate PDF reports
- No need to file printouts, saving you time

Be in Control with Real-Time Remote Monitoring

- See the real-time autoclave display on your PC
- Monitor all activity for up to 8 autoclaves

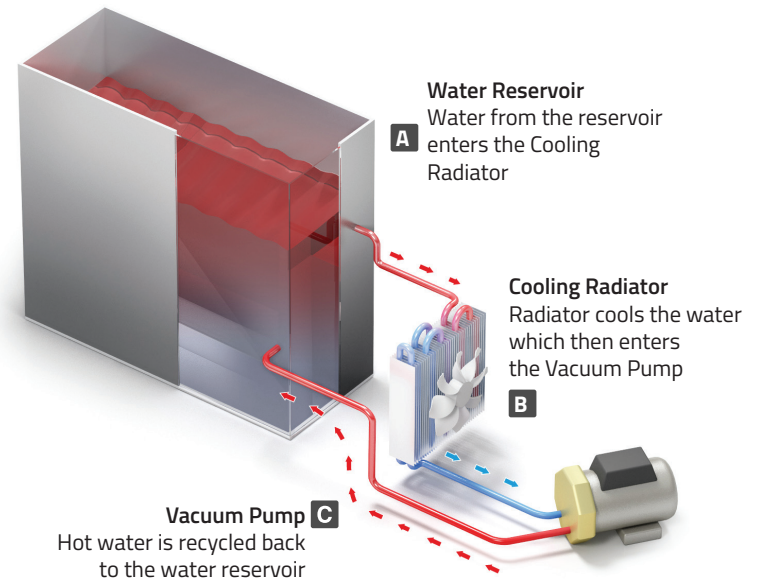

R.PC.R Software is optional.

With R.PC.R you can see: Graphs of the cycle data, numeric cycle data, cycle print-outs, measured values table, table of parameters.

Water Saving System

Huge water savings are achieved with the optional highly efficient water recycling system (HSG-WS model) that consumes only 5 liters of tap water per day.

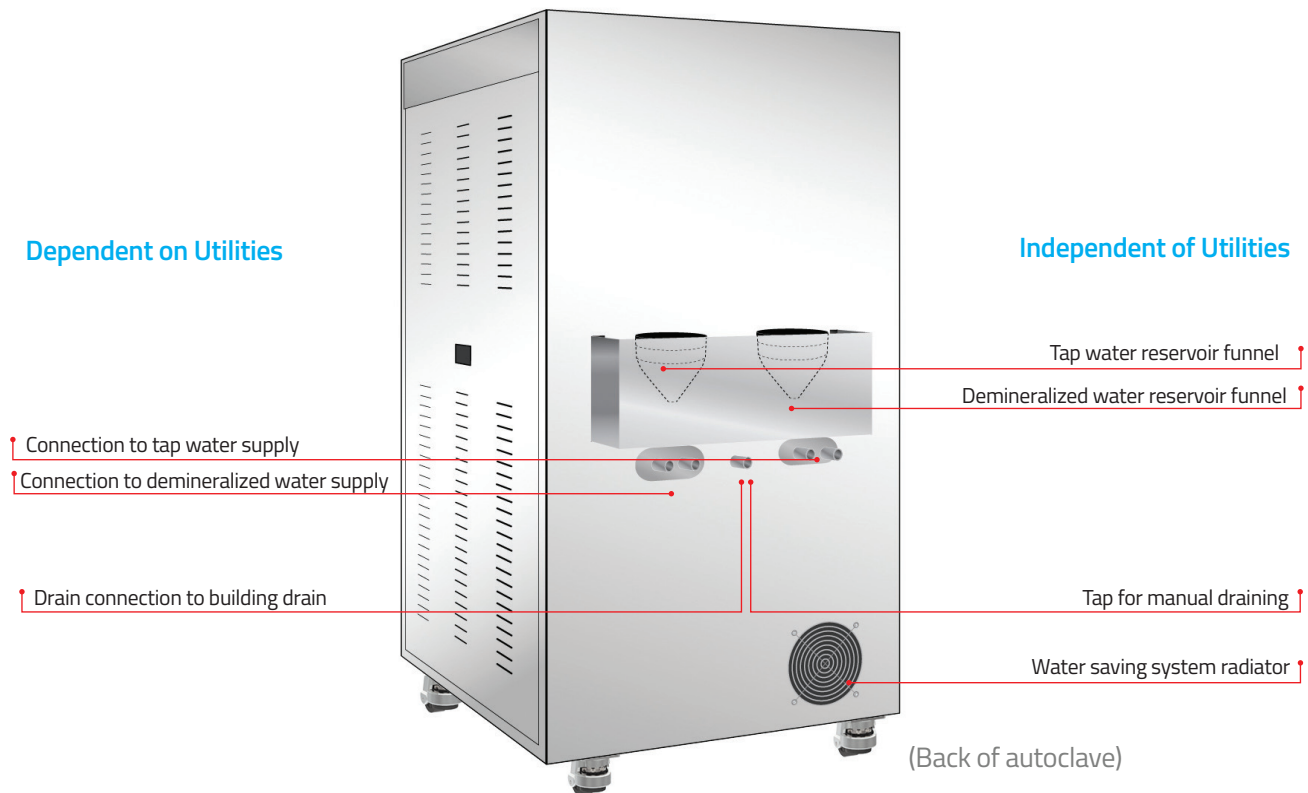

Utility Connection Features

Dependent on Utilities

The HSG-WS can be operated as a stationary sterilizer connected to building utilities for distilled water, tap water, drain and electricity.

Independent of Utilities

The HSG-WS comes with a standard "Plug and Play" option to operate only with an electric power connection. In this mode there is no need to connect the autoclave to the building utilities for distilled water, tap water and drain. With this option it is also possible to connect to utilities.

Safe & Reliable

- Double locking safety device prevents door from opening while chamber is pressurized
- Control lock-out switch prevents starting a cycle if door is not properly locked
- Control system protection prevents door from opening at high pressure and temperature

3870HSG-WS - 85 Liter Chamber

The 3870 HSG-WS is a hospital grade Class B autoclave, suitable for large medical & dental clinics, and operating rooms. Designed to be a fast cycle sterilizer that is mobile, operates 24 hours a day, and can optionally operate independent of building utilities.

- Automatic locking door
- Powerful built-in steam generator
- 85L Chamber & trays
